Type of Research

Study involving human participants: No

Will samples be collected that would be considered relevant material as defined by the Human Tissue Act (2004): No

Will human cell lines be used: No

Will this project be undertaking biobanking activity: No

Multi-site project: Yes

Lead organisation: University of Manchester

Ethics

Ethics required: Ethics not required

Ethics submitted date:

Ethics committee name:

Ethics Ref No:

Ethics committee type:

University ethics committee: No

Experimental Medicine

Is experimental medicine: No

Funding and Finance

Order approver(s): Luke Munford

Full economic cost of the project: £501,744.00

Total recoverable from funder: £284,746.00

School's contribution: 216998

Sub-contracts: Outgoing to york University: £36,337

Total funded income request: £284,746

Organisational contribution required: No

Justification for not adhering to all relevant cost recovery policies: n/a

Justification for not adhering to PI/Co-I time cost recovery policy: n/a

Peer review

Reviewer's name: Matt Sutton

Reviewer's email: matt.sutton@manchester.ac.uk

Date email sent to reviewer: 22 July 2019

Date reviewed: 30 July 2019

Reviewer's opinion - this application is: Of high quality and ready for submission subject to making the corrections and comments in my report (no need to re-review)

Any confidential comments from the reviewer are available only to the approvers on the website

Authorisation

The Principal Investigator has confirmed that an appropriate approver has been selected for each applicant.

Declaration signed by Principal Investigator/Researcher

Declaration has been signed: Yes and project was submitted for authorisation on 09 October 2019

Project was submitted for approval to the following groups:

- School of Health Sciences: Arpana Verma (Division of Population Health, Health Services Research and Primary Care) APPROVED
