

GENEALOGIES OF KNOWLEDGE

The Evolution and Contestation of Concepts across Time and Space

An AHRC-funded, interdisciplinary research project based at
The University of Manchester, UK and led by
Professor Mona Baker, Professor Luis Pérez-González,
and Dr Saturnino Luz

FOCUS ON

How concepts relating to the body politic and scientific, expert discourse
travel over time and are mediated by various forms of translation

How established interpretations of the same concepts are currently
being challenged by radical democratic groups on the Internet

RESEARCH INVOLVES

Historical lingua francas:
ancient Greek, medieval Arabic, Latin, modern English

Building large, diverse electronic corpora

Developing an innovative research methodology
and new visualization software to present findings

GENEALOGIES OF KNOWLEDGE

Genealogies Advisory Board

Guyda Armstrong, Stuart Jones, David Langslow, Maeve Olohan,
Matthew Philpotts, Myriam Salama-Carr, Carsten Timmermann,
Simone Turchetti, Andreja Zevnik
