

Rinta Mathew
Division of Cancer Sciences

Overview

I am a 2nd year PhD Gastroenterology student at the Division of Cancer Sciences. I am the PGR student representative for the School of Medical Sciences within FBMH and a PDS award holder currently working on evaluating the protective effects of a nutraceutical Sprotone on Acute Pancreatitis. Sprotone is a patented nutraceutical, I formulated based on Ayurvedic literature, traditional Indian system of Medicine.
