

Adrian- Mircea Nenu
Department of Computer Science

Overview

I am a computer scientist and researcher with a background in software engineering at large-scale technology companies. My research interests are in the domain of computational intelligence, with a specific focus on understanding the underlying complexities of systems analogous to the human mind and scaling their benefits to human societies. My professional experience in the UK and the US has provided me with invaluable insights into the challenges and opportunities of modelling and working on complex, real-world systems.

Qualifications

Master in Science, Business Analytics, University of Bath
15 Sept 2020 → 30 Jun 2023
Award Date: 30 Jun 2023

Bachelor of Science, Computer Science with Industrial Experience, The University of Manchester
15 Sept 2013 → 30 Jun 2017
Award Date: 30 Jun 2017

Employment

Doctor of Philosophy, PhD Computer Science (42)

Department of Computer Science
The University of Manchester
29 Aug 2025 → present

Software Engineer

Google
Mountain View, United States
10 Feb 2024 → 9 Sept 2025

Software Engineer

Google UK Limited
London, United Kingdom
15 Apr 2022 → 10 Feb 2024

Software Engineer

Morgan Stanley& Co International Plc
London, United Kingdom
4 Aug 2017 → 15 Apr 2022
